

**DREAM.
BECOME.
GROW.**

SUMMER STUDENT PROGRAMME

Imagine spending your
summer at CERN.

Take part!

How do you plan to spend your summer? How does getting involved in some of the world's biggest experiments sound? This is more than summer work. It's the chance to join CERN in Geneva – getting involved in the day-to-day work of our multicultural teams. Attend lectures, visit CERN facilities, take part in discussions and workshops with people who are leaders in their fields. In fact, it will be a summer like nowhere else on Earth.

WHAT WE OFFER:

- A contract of association of 8 to 13 weeks to work on a technical project.
- A daily subsistence to cover your living costs.
- A travel allowance on a lump sum basis paid at the end of your stay to help you with the cost of travel between Geneva and your residence at the time of the selection committee.
- Membership of the Health Insurance scheme.
- Assistance in finding accommodation on the CERN site or nearby.

ELIGIBILITY CONDITIONS:

- You are a Bachelor or Master student (not PhD) and should have completed, by the summer of attending, at least three years of full-time studies at university level or you are expecting to graduate in the summer of attending.
- Your degree focuses on one of the following domains: Physics, Engineering, Computing or Mathematics.
- You have not worked at CERN before with any other status (Technical Student, Trainee, User...) for more than three months.
- You have good knowledge of English; knowledge of French would be an advantage.

Candidates of all nationalities are welcome to apply for this Summer Student Programme.

careers.cern/benefits

All our positions are based at CERN, in Geneva, Switzerland where the quality of life is beyond compare.

Life at CERN. Passionate about your pastimes or keen to learn something new? Pursue sportive or creative hobbies in one of CERN's 40+ clubs and get to meet new people from the CERN community.
